

We Need You!

The PIAND Board of Directors has established two ways that members can contribute to help with the advocacy mission of our association. The insurance industry always seems to be under attack from various sources and these two funds will help PIAND and our members have a voice in the political process and get out the positive message about our industry.

PIAND established a "Defense Fund" several years ago to raise funds to help address issues that directly affect our industry. Defense Fund monies will be used for issues such as crop insurance, state regulation, licensing requirements, national meetings, etc. The Defense Fund cannot and has never given any funds to a political candidate or position. THIS WILL REMAIN UNCHANGED.

PIAND-PAC was established to raise funds and provide financial assistance to political candidates who actively support the insurance industry. During every session, legislators hear bills and address issues that affect insurance agents and your contribution to the PAC helps pro-insurance candidates get elected. Before each election, the PIAND board will determine which candidates receive PAC money based on their SUPPORT of our industry, committee assignments, and/or leadership position.

CHOICE: As a contributor, you can have your choice of contributing to the Defense Fund (which is a business expense and deductible) or to the PAC (which is not tax deductible) or both.

**** Defense fund contributions can be made with a corporate check while PAC contributions must be made with a personal check.

Thank You for your contribution & support!
